HD 30 mobile high pressure jetting machine

The HD 30 mobile high pressure-jetting machine is fitted with a petrol engine that guarantees optimal cleaning of small drains and sewers up to 250mm.

This machine is particularly suitable for jetting and cleaning of house connections, roof water drains, sewers blocked with grease and industrial sewers. It is also very effective at cleaning street furniture and terraces. The HD30 can be connected directly to a water supply therefore eliminating the need for a separate water tank. The HD30 is supplied with two nozzles and a high pressure gun with lance.
